

LAMP PUT ON ALIEN ACTION

President Orders Broad War
Powers of Trading With Enemy
Act Put in Operation

BEGIN LICENSING

Commerce Board Starts Work—
Insurance Firms Licensed—
Alien Papers Curbed

Washington, D. C., Oct. 14.—Broad war powers conferred upon the president by the trading with the enemy act were put into operation under an executive order issued tonight delegating the authority under the law to various government departments and a newly created war trade board. The trade board is composed of the members of the export administrative board, which it will replace with the addition of a representative of the treasury department. It will continue license exports and will exercise similar control over imports as soon as the president proclaims under authority of the trading with the enemy act articles to be so restricted.

Trading or commercial dealing of a nature with any enemy company agent in this country or abroad is forbidden, except under license of the trade board, which also is authorized to license enemy or "ally of enemy" company doing business in the United States excepting insurance companies whose supervision is entrusted to the treasury.

Censorship of mails, cables, radio and telegraph messages passing out of the United States is placed in the hands of a censorship board consisting of representatives of the war, navy, and air force departments, the war trade board and of George Creel, chairman of the committee on public information. The treasury department is authorized to license insurance or reinsurance companies of the enemy, or of the enemy, doing business in the United States.

Regulation of the use of enemy made or controlled patents for the purpose of the granting for publication of patents containing information valuable to the enemy, is given to the war trade commission.

License of Alien Publications

The postmaster general is entrusted with supervision over, and licensing of, foreign language newspapers. In delegation of this authority Postmaster General Burleson has received instructions for licenses and will begin issuing them before Tuesday, Oct. 16, when the provision of the law becomes effective. All such papers except those granted licenses are required to file with their local postmasters before publication true statements of all matter relating to the United States government or the government of any other nation at large. The same section of the law makes it unlawful to circulate any matter unobtainable by the espionage act. The President's order vests the powers of the alien property custodian to act as trustee for all my property within the United States or to issue licenses exempting my companies from his supervision. Appointment for this position will be made soon.

The Secretary of State is empowered to license the transportation of enemies and from the United States through existing passport means.

The new war trade board is to consist of Vance C. McCormack, chairman, representing the secretary of state; Dr. Geo. Taylor, representing the secretary of agriculture; Thomas B. Jones, representing the secretary of commerce; Beaver White, representing the administrator; Frank O. Munson, representing the shipping board and a representative of the secretary of the treasury yet to be named. All but treasury representatives are now members of the export administrative board whose work hereafter will be done by the bureau of exports of the trade board.

INDOOR WASHERS ON STRIKE

New York, Oct. 14.—Twelve hundred window cleaners went out on strike here today, after their employers had refused to grant a wage increase of \$6 a week. The men have been receiving \$18 a week. The strikers declared they would not return to work unless they were given \$24 a week and a rate of \$30 a week for overtime. They rejected an offer of a week increase.

DEAD CHAPLAINS FOR ARMY

Boston, Mass., Oct. 14.—The urgent demand for more chaplains in the new army was emphasized today by Bishop William Lawrence of the Massachusetts Episcopal diocese. Under the law, he said, there is only one priest to a regiment, which is formed of 1,000 men. The regiments are much larger now and many organizations have not yet had a religious leader chosen.

UTO WRECKED; SEVEN DIE

Detroit, Mich., Oct. 14.—Seven persons, one man, two women, and four children were instantly killed late yesterday when the automobile they were in was struck by a Michigan Central passenger train near Warren village, about 13 miles north of here. Dead, all of this city, are Mr. and Mrs. J. P. M. and their two children, Mrs. George Harvey and her children.

CO-OPERATE TO MOVE COAL

Owners of Barges and Tugs in New England to Increase Efficiency.

Boston, Mass., Oct. 14.—An increase of 25 per cent in the efficiency of the water-borne coal-carrying operations in New England is expected to result from a plan of co-operation between owners of coal barges and tugs to be put into effect tomorrow, according to a statement today by James J. Storow, fuel administrator for this district. Results will be sought through the medium of an association of owners of such craft, the activities to be directed from this city by Captain Arthur Crowley, who will have 130 tugs under his jurisdiction.

Washington, D. C., Oct. 14.—The fuel administration announced tonight that prompt consideration will be given to emergency calls for coal in districts where there is a shortage. In this connection figures were given to show that New England, New York city, and Philadelphia received more anthracite during the first eight months this year than in the corresponding period last year. Buffalo and Erie received 58,950 tons less and the administration said the deficiency will be made up as soon as possible.

HOLLAND WILL NOT SHIP TO ENGLAND

ACT IN RETALIATION FOR DIFFERENCES WITH GREAT BRITAIN

Amsterdam, Holland, Oct. 14.—The Mossbode says it learns that all Dutch shipping to England has been stopped on account of the pending differences between Great Britain and Holland.

Great Britain on October 11 stopped all commercial cable communication with Holland until such time as the Netherlands government placed absolute restriction on the transit of sand, gravel and scrap metal from Germany to Belgium by way of Holland. The British government contended that this concrete raw material was being used by the Germans in great quantities in the construction of dugouts to the detriment of the British soldiers.

The Netherlands government replied by saying that it would satisfy the British desire to stop the transit of sand and gravel to Belgium only when the British government showed, despite the declaration of the German authorities and the investigation of the Dutch officers that the materials were being used for war purposes.

Amsterdam, Holland, Oct. 14.—Cornelius van Aalst, president of the Netherlands overseas troops, in an interview printed in the Handelsblad, regarding the restriction placed by Great Britain on cable communications between Holland and other countries, including the Dutch colonies, declared that Dutch commercial men never would try to influence the government. He thought Germany might forego improvements on Belgian roads.

The United States, which in part, he said, boasted of Dutch origin, owed a tremendous debt to Holland and therefore was under moral obligations to help her. In conclusion he said that the American government was playing a high hand.

HARD RAIN TURNING FLANDERS INTO MUD

OPPOSING ARMIES KEENLY WATCH EACH OTHER

British Front in France and Belgium, Saturday, Oct. 13.—(By the Associated Press).—With the exception of two brief intervals of sunlight, there was a continuous hard rain today on the Belgian battle front. This was the most important news from the battle line, for it meant that the low lying lands in Flanders were rapidly being turned into that state of liquidation which represented Flanders at its worst, and Flanders at its worst has few competitors.

Troops in the forward lines of the opposing armies were lying out in this mud and water with little protection from the cold, driving rain, watching each other intently but making few attempts to stir from their positions. Desultory fighting was continuing, for the lines come close together in many places and rifles and machine guns are pouring streams of bullets across No Man's Land.

The British were clinging doggedly to the strips of territory which they had wrested from the enemy on Friday. That Field Marshal Haig's men were able to advance at all over this almost impassable ground is still a matter of wonder among observers.

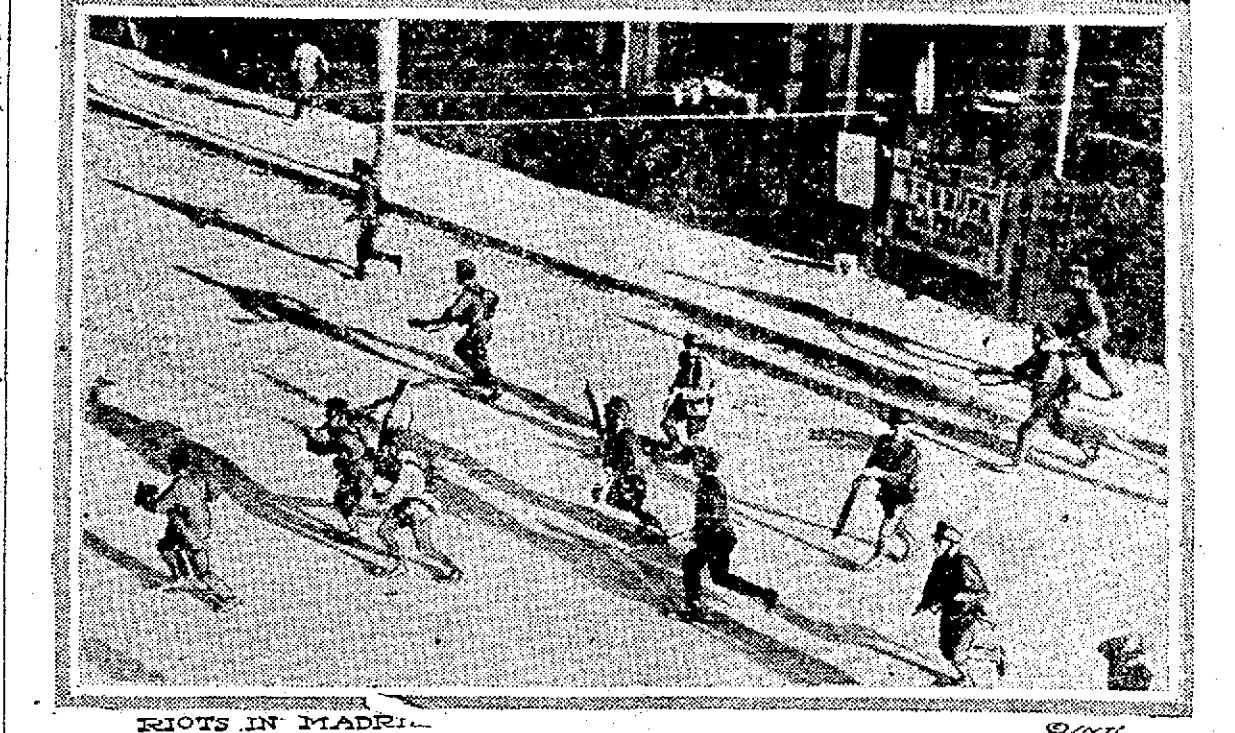

As a result of yesterday's attack the British greatly improved their positions, especially along the important Passchendaele ridge and on the left wing of the offensive north of Poelcapelle. At some places they made no advance at all or rather were pushed forward and were then forced to fall back because of the mud barriers which they encountered.

BIG COLD STORAGE STOCKS

Washington, D. C., Oct. 14.—Eighty per cent more frozen beef was in stock on Oct. 1 than a year ago. Reports from 293 storages to the bureau of markets, made public tonight showed holdings of 137,806,561 pounds.

Small decreases were reported for dried, salt and pickled pork and lard but frozen pork increased twelve per cent.

RECENT WAR RIOTS IN SPAIN

RIOTS IN MADRID
The picture shows the royal troops pursuing the rioters. In the center of the photo may be seen one of the soldiers with his rifle raised, ready to club one of the fleeing rioters.

U. S. SOLDIERS TRAIN IN RAIN

Getting Accustomed to Winters of the Kind Found at the Front

American Training Quarters in France, Saturday, Oct. 13, by the Associated Press.—General Rachitch, Serbian chief of staff, and Dr. M. R. Besmitch, Serbian minister to France, have just spent two days with the American troops in training. They were much impressed by what they saw, particularly the bayonet drill which is a mixture of American and British tactics. General Rachitch made an address to one section of the troops thanking them for their demonstration. Drills are being held in the rain which has been falling steadily for the past eight days, giving American soldiers a taste of what their French and British comrades have been enduring for the past three winters.

NATION WILL INSURE BOTH MEN AND WOMEN

POLICIES AT 63C AT 15 YEARS TO
\$3.34 AT 65 YEARS

Washington, D. C., Oct. 14.—Samples of the insurance policy which the government will write for its soldiers and sailors were made public tonight by the war risk insurance bureau of the treasury department. Plans for placing the policy into effect immediately will be outlined here next Tuesday at a conference with treasury officials, with representatives of the navy and officers and enlisted men at the 32 cantonments.

Details of the policy disclose that risks will be written upon the lives of men and women between the ages of 15 and 65 in all branches of the army, navy, marine corps, coast guards, naval reserve, national naval volunteers, nurses, and any other branches of the United States service serving with the army and navy. The announcement was made also that "rates and ages higher or lower will be given upon request."

Premiums, computed on a monthly basis, vary between 63 cents per \$1,000 at age 15 to \$3.35 per \$1,000 at age 65. Between 21 and 31 years, the following monthly premium will be charged per \$1,000 of insurance, the limit being \$10,000: 21 to 23 inclusive, 65 cents; 24 and 25, 66 cents; 26 and 27, 67 cents; 28, 68 cents; 29 and 30, 69 cents; 31, 70 cents.

During periods of total disability the insurance will be paid not in one lump sum, but monthly for 20 years, should the disability continue for that period. Should death occur before 20 years, the remainder of the policy will be paid at once to the beneficiary. At the age of 25 the monthly installment for the 20 year period would be \$5.75 per \$1,000 of insurance.

Provision is made for family allowances, for education of wounded and cripples, for compensation in case of death or injury without cost, and for the additional protection of insurance at very small cost.

In cases of partial disability the amount of compensation is determined by a schedule to be based upon the extent of the impairment of earning capacity. Total disability payments are to be increased above the figures named in the policy where the insured has dependents.

"Where the disease is caused by the willful misconduct of the man," the policy reads, "compensation will not be paid."

The policy will be issued in multiples of \$500, no policy, however, to be less than \$1,000.

AMERICAN STEAMER SUNK

New York, Oct. 14.—News of the sinking of the American steamship Lewis Luckenbach by a German submarine off the coast of France was received here today in a cable message to the shipping firm of George Luckenbach, Inc., from their French agents. Forty-six of the 47 members of the crew had been landed, the message said. The Luckenbach was bound for Havre with a general cargo.

GERMANS LAND IN RIGA GULF

Part of Island of Oesel in Teuton Possession—Two Towns Reported in Flames

PRESS RUSSIANS BACK

Petrograd Reports Four German Torpedo Boats Sunk and Withdrawal of Men

With the armies in Flanders inactive, except for bombardments, interest centers on the operations of the Germans on the island of Oesel, situated at the mouth of the Gulf of Riga and the key to the entrance of the Gulf of Finland.

At last accounts the Germans, who landed under the cover of a great array of naval craft, were steadily pressing back the Russians toward the southeastern part of the island and also putting ashore other forces with the huge armada guarding them against assault by Russian warships.

The entire northern and eastern section of the island were in German hands and the invaders were only a short distance from Arensburg, on the southern shore, which was in flames. Serel, the southernmost extremity of the island, also was on fire. Whether the conflagrations were caused by the German guns or whether they were started by the Russians is not known.

Germans Lose Four Boats

Although the German communication losses during the landing on Oesel island the Petrograd war office says that in attempting to cover the landing of the enemy on Dado Island to the north of Oesel four German torpedo boats are reported to have been sunk and one cruiser run aground. The small detachment which landed on Dado island was forced later by the Russians to return to the ships while the Russian fleet, which on last accounts had suffered no material damage, was hindering the German war craft in the waters between Dado and Oesel island.

As yet nothing has come through to show that the enemy has attempted to attack the mainland of Eastern Esthonia nor has there been any indication that the Russian front in this region has been moved.

French Take Prisoners

Sunday again saw a heavy rainfall on the front in Flanders and there was only reconnoitering encounters and artillery activity. Near Poelcapelle and Beecklaers the British troops Saturday night repulsed German reconnoitering detachments, while the French attacked German patrols and took a number of prisoners. To the south along the Alsne front a lively artillery duel continues between the French and the Germans. On the Austro-Italian front, especially in the Isonzo region, the reciprocal bombardments continue heavy. The only infantry engagement reported was in the Chiapobano valley where Austro-Hungarians attempted an attack but were repulsed by the Italian fire.

Germans Pressing Russians Back

Petrograd, Russia, Oct. 14.—Fighting between the Russians and the German troops which landed on Oesel Island in the Gulf of Riga continues according to the Russian official statement issued today. The Germans are pressing the Russians toward the southeast. An attempt made by a German force to capture a point on Moon Island between the Island of Oesel and the mainland of Esthonia, was repulsed.

"The Landing of German troops on Oesel continued yesterday," the statement said. "The region where the disembarkation is taking place is guarded from the sea by very large enemy naval forces."

Troops Return to Ships

"Simultaneously with the landing on Oesel Island several enemy ships engaged our shore batteries on Dado Island. According to the information to hand four enemy torpedo boats were sunk by the fire of this battery and one enemy cruiser which was firing at this battery ran aground."

"Our battery was completely destroyed by the overwhelming gun fire from the enemy's ships. This enabled the enemy to land a small detachment on Dado Island which, however, was unable to maintain its position and the troops promptly returned to their ships."

"Since yesterday morning our ships have successfully hindered the enemy's naval forces entering our waters between Dado and Oesel Islands."

"In the course of the engagements of the last two days our ships suffered no appreciable damage. While he has landed troops the enemy also continues the usual line sweeping along the Coulund shores of Irian Strait."

"During numerous aerial reconnaissances an engagement in the region of Oesel Island one of our aviators brought down an enemy airplane."

DAIRYMEN VOTED TO PAY MAN WITH HOOVER

REPRESENTATIVE WAS TO ADVISE
FOOD ADMINISTRATOR

New York, Oct. 14.—R. D. Cooper, president of the New York State Dairyman's league, issued a statement here tonight in which he admitted the directors of the organization he heads had appropriated \$5,000 at a meeting in Utica, N. Y., last July to defray the expenses at Washington of a representative of the producers who would act as an advisor to Herbert C. Hoover, the food administrator. He declared "absolutely false" however the statement of Attorney General Brundage, of Illinois, that the money was to be used "to place a man friendly to the league in the national food administration."

Mr. Cooper explained that the directors voted the appropriation about a month after George Haskell, of Chicago, had been designated by Mr. Hoover to act as his advisor.

Mr. Cooper admitted he had written to V. J. Kittle, secretary of the milk producers association, Chicago, as reported in dispatches from Chicago last night, but asserted his letter contained no reference to the appointment of a "friend" on the Hoover committee as charged in evidence presented to Federal investigators.

It was understood he asserted that whoever was named to represent the producers would be required "to act without expense to the government or the food administration," and after the subject was discussed with the commission that "it would be a financial burden on the individual" the directors voted the \$5,000 fund. No part of the money has been used, Cooper declared, as Mr. Haskell is a "man of means" and use of the fund was not necessary.

Mr. Cooper stated that a conference of representatives of the various branches of the milk industry was called in Washington, June 26, and at that meeting a committee was selected to act as an advisory committee. This committee decided to offer a man to Mr. Hoover in an advisory capacity and selected Haskell who was later designated by Mr. Hoover as a member of the national dairy industry war council.

"As far as we have had to do with any other organization," Cooper said, "we have been above board and we will show any court or any kind of investigation that our whole activity has been to assist in the work of cooperation with the food administration."

F. H. SYKES, EDUCATOR, DIES

Cambridge, Mass., Oct. 14.—Frederick Henry Sykes, widely known as an educator both in this country and Canada, died suddenly at his home here today. In 1912 he became president of the Connecticut college for women at New London, resigning last year to come to Cambridge, where he planned to devote himself to literary work.

STOCKS AT LOW RECORDS

Capital Needs of Government Bear Heavily Upon Investing Public.

New York, Oct. 14.—Quoted values clearly reflected further enforced liquidation in the four days allotted to this week's stock market. Prices in every important branch of the security list fell to or under previous low levels of the year.

The steady decline of recent months entered upon a more acute stage, the most logical reason for which apparently was the fact that now capital requirements of the government bear most heavily upon investors and holders of first class securities.

Many speculative accounts were closed out during the most urgent calling.

Entering into the pessimistic mood of the speculative element was the unexpected suspension of the dividend on People's Gas, which adversely affected that stock and allied utilities from 10 to 20 points.

Plans now well under way by the railroads to renew their plea before the interstate commerce commission for higher freight rates coincide with the demand of a larger proportion of railway employees for increased pay.

BABIES BURNED ALIVE BY MURDEROUS TURKS

DR. RIGGS TELLS HOW ARMENIANS WERE EXTERMINATED

New York, Oct. 14.—Burial alive of babies in trenches with the bodies of their mothers, who had been slaughtered or allowed to perish from exposure, was practiced by the Turks in their work of exterminating the Armenians, it was declared here today by the Rev. Henry H. Riggs, missionary of the American board of commissioners for foreign missions to Harput, Turkey, who recently came back to this country. A trench was dug beside a camp of Armenian women, he said, and as they met death the survivors were forced to drag their bodies to it and bury them.

"The gendarmes said they could not take care of the babies that were left behind, so many of those were buried with their mothers," Dr. Riggs said. "When I visited this camp I frequently saw Turks wandering about among the Armenians picking out pretty girls and little children to take away to their homes. Some mothers told us that they had themselves thrown their babies into the Euphrates river rather than allow them to be taken to Moslem homes. Many more threw themselves into the river to escape a bondage of shame worse than death."

"About 15 miles from Harput is a lake hidden from sight with many ravines about it. We were told that the Armenian exiles were being killed and left in those ravines. Two Americans investigated and brought back photographs and actual facts. They saw in a 20-mile ride 10,000 human bodies, most of them killed by the bayonet. With a few exceptions they were women and children, and the mangled condition of their bodies showed the horrible fate that had been theirs."

COMMISSION TO PASS ON WORKERS' CLAIMS

AWARDS FOR MEDICAL OR LEGAL SERVICES GRANTED BY IT

New York, Oct. 14.—All claims for medical services rendered to injured employees in cases coming under the workmen's compensation law hereafter must be made to the New York state industrial commission, according to a statement issued by the commission here tonight.

"The industrial commission will pass upon such claims," the statement says, "and will make awards covering such medical services in such amounts as may be reasonable. Only in the cases where the injured employee has requested his employer to furnish medical services, or has accepted the physician's verdict by his employer, can the award be made against the employer or the insurance company."

"If the injured employee provides his own medical attention without regard to the expense of such medical services and the doctor may have a lien upon the compensation to be paid the workman in such manner and in such amount as the industrial commission may determine."

The commission's action it was stated was necessitated by a recent decision of Justice Benedict in the appellate term of the supreme court in Brooklyn.

"The appellate term dismissed an action brought by a physician for medical services rendered in a compensation case," the statement added, "on the industrial commission. The decision practically holds that no action can be maintained in the courts for medical services but that all such claims must be determined by the industrial commission."

"Heretofore the industrial commission has held that its only duty under the law was to determine the reasonableness of the doctor's bill."

"The situation however has been very unsatisfactory to the medical profession owing to the fact that when the commission had approved his bill it was necessary for the doctor to bring suit to recover the amount."

"The same reasoning by which the supreme court arrives at its decision

TEAMS READY TO GO AT IT AGAIN

American Leaguers Think New York Cannot Duplicate Last Week's Work

CHICAGO NOW LEADS

Schupp or Benton For Giants—Faber, If Right, Starts For Chicago Today

Saturday's Story on Second Page

New York, Oct. 14.—The two contending baseball teams battling for the championship of the world returned to New York tonight to resume their struggle at the Polo Grounds tomorrow afternoon. As a result of the stormy and loosely played game in the west Saturday, the series stands three victories for the Chicago White Sox and two for the New York Giants.

One triumph for the American Leaguers tomorrow will give them the baseball championship of the world. Victory for the Nationals, however, will carry the series into Tuesday, the weather permitting, and assuming there is no tie game. The White Sox still have two chances to win while the Giants has but one and the Chicago players say they do not believe McGraw's men can repeat their performance of last week of making two straight games on the Polo grounds.

Pitcher Possibilities

The Giants are pinning their faith on Ferdie Schupp and Ruben Benton who helped the New Yorkers to make their great comeback last Wednesday and Thursday when all but their most faithful followers thought the team was out of running. But in their place in the present series there is little choice between the two and it is probable McGraw will make no decision but will wait and send in tomorrow to hold the Sox the one who shows the better in practice. Benton held the Sox to five hits for six bases on the one game he pitched and won. Schupp has twined in two games being taken out in the second inning of one contest and shutting out Chicago in the second.

Manager Rowland's pitching choice he said tonight would be Faber if he is right and Cleotis to relieve him if Faber shows any signs of trouble. Cleotis, the records show, has seen 23 of the 42 innings New York has been at bat. The White Sox manager said he was confident that tomorrow's game would be the last.

Where Teams Lead

Unofficial averages of the five games so far played show neither team had a great advantage. By reason of yesterday's fusillade of hits Chicago leads New York in team batting. The White Sox has a team average of .285 to the Giants .271. Chicago has made a total of 47 hits and 17 runs, while New York has made 45 hits for 15 tallies.

New York leads in team fielding with an average of .959; Chicago's figures are .945. The Giants have made eight errors, three of them in Saturday's wild game and the White Sox eleven, of which six were also scored on Saturday.

The two short stops, Weaver and Fletcher, lead their respective teams in errors, the former having four and the latter three. The average of John Collins, the Sox fielder, of three errors in a total of seven chances is far below world series standard for outer garden men. He is the only outfielder on either team to make a misplay so far.

Robertson Best Batter

Individual batting honors for the two teams rest with Davy Robertson, the Giant rightfielder. He is the only player on either team who has double figures in the hit column having slammed the ball safely ten times in nineteen times at bat for an average of .526. Tariden, substituting for the hard-hitting McCarthy and whose catching has been of a high order, comes next to Robertson with an average of .500—five hits in ten times at bat. Kauff and Zimmerman, the Giant's clean-up men are batting under .200. Capt. Eddie Collins is leading the White Sox regulars with an average of .444. Weaver is hitting .353. John Collins has average .333 and Jackson and Felsch .316 each.

COLLEGE ASSOCIATION ELECTS.

New York, Oct. 14.—Robert Fleming Blair of Yale university was elected president of the intercollegiate association of Amateur Athletes of America at the annual meeting here today. Other officers chosen were Joseph A. Esquirol, treasurer, and Hubert G. Larson, acting secretary.

It was announced that the annual six mile cross country race will be run in Van Cortlandt park in this city on November 24.

JOFFRE VISITS U. S. CAMP.

American Training Camp in France, Oct. 14, via the Associated Press.

Marshal Joffre arrived at the American field headquarters this evening. He dined with General Pershing and spent the night at his quarters. Marshal Joffre will review the American troops tomorrow.

with regard to doctors' bills which would seem to apply in the case of legal services rendered in connection with compensation claims and the industrial commission will undoubtedly follow the same course with respect to the fees charged by lawyers for handling compensation cases."

SOX OVERCOME LEAD AND WIN

Climb up in Ragged Game to Tie
Score and Then Make
Three More Runs

FINAL SCORE 8 TO 5

Unexpected Come-Back Mad-
dens Giants, Who Use Football
Brand of Tactics

Sudden uphill climbing climbing that would do credit to General Cardone's forces on the sides of Monte San Gabriele, by the White Sox at Comiskey Park Saturday afternoon overcame a four run lead, tied the score, and then turned the tables in favor of Rowland's nine. It all came after the Chicago fans had given up hope that their favorites would figure in the taking of a world series. The White Sox beat the Giants in the fifth game 8 to 5.

The unexpected come-back of the American leaguers maddened the Giants. They fought with football tactics. Herzog and Fletcher tried hard to block Sox runners. Fletcher and Rowland at one time seemed ready to go at each other hammer and tongs. Fans in the stands expected any minute to witness a rough and tumble match. But it blew over, and the game goes down in history as a rotten four playing figures on both sides. Six errors are charged against Chicago and three to New York. Rowland used four pitchers to win, Russell, Cicotte, Williams and...

Russell, after legging on the ground that a southpaw would clean up the Giants, started for the White Sox, but he didn't last an inning. He was pulled out after one run had been scored, and two more were within striking distance. Cicotte was sent to his relief only to let another run slip across the plate before the melee was stopped. The runs were scored by Herzog and Kauff, the latter hammering out a double.

Sallee pitched tight ball until the third when the Sox got a run, but the Giants came back in the fourth and got two more, placing the score 4 to 1 against Chicago.

Then in the sixth, Rowland's team began to show the Giants what gales they have in the Windy city. They drove another across the plate, followed by the seventh with three more, and in the eighth with another triple base circuit. Eddie Collins fled out in the seventh, but he was followed by Jackson and Felsch each with a single. Candill out loose a whizzing two bagger, scoring Jackson and Felsch. Weaver waited for Sallee to toss up a full dozen balls before he hit a bouncer to Fletcher and was thrown out, advancing Candill to third. Schalk was passed to bring Williams to plate, but Rowland sent Lynn to the plate, who struck out. Meantime, however, Schalk beat-lines it for second drawing a throw from Sallee to second too late to catch the Sox catcher, and which Herzog missed anyway. Candill had a clinch then getting home to tie the score.

How Chicago Won Out

The eighth rolled round for Chicago team with a safe fly for J. Collins who was pushed to second on McMullin's sacrifice. Eddie Collins sent a single to center that sent John home and Kauff mused up. Jackson hit a whizzer that was intended to advance E. Collins but Herzog and Fletcher here threw in their blocking stunt that didn't work because Umpire Rigler saw it and told Collins to take third. Jackson reaching second. A wild throw by Zimmerman to second let Collins romp home. Before Sallee was relieved Jackson scored.

R. H. E.

New York 2 0 0 2 4 0 1 0 0—5 12 3
Chicago 0 0 1 0 0 1 3 3—8 14 6

New Gun Shoots Both Ways.

An army officer has invented a gun which shoots both ways at the same time. The purpose of this arrangement is not to fight the enemy in the front and the rear at once, but to eliminate the recoil, and thus to save the time required in bringing the gun back into position for a second shot. The force exerted by the exploding powder in any gun is equal in both directions, hence the recoil, or "kick." By having a barrel open in both directions, by placing the charge of powder in the middle of the gun and by having a projectile of equal weight on each side of the powder charge, the gun itself is not moved by the explosion. The projectile fired to the front is an ordinary explosive shell. The counterbalancing is a charge of fine shot of equal weight. The shot loses its velocity and falls harmlessly to the ground within a few feet of the gun.

Natural Tendency.

"A man may have no change to spare for his wife, but he always can scrape up enough to go to the baseball game."
"Easily explained, my dear. It is natural tendency of a fan to raise the wind."

OAKLAND SENSIBLE "SIX"

EXTRAORDINARY popularity has marked the history of the Oakland Sensible "Six" since its advent into the market of moderately priced cars—a popularity based on unusual combination of characteristics which are today more strongly in demand than ever before.

The Oakland Motor Car Co. and the new Sensible "Six" form the most favorable combination which exists in the motor industry today for the immediate satisfaction of the motor car buyer.

This new Sensible "Six" is now on our sales room floor ready for your inspection. **\$990 f. o. b. Factory.**

ARTHUR M. BUTTS

WORKERS WILL PUSH HARDER TO BOOST LOAN

PRESIDENT CALLS FOR LIBERTY LOAN DAY, OCTOBER 24

New York, Oct. 14.—An army of workers in behalf of the second Liberty loan will begin the last half of the campaign with renewed vigor in all parts of the New York federal reserve district tomorrow morning. Subscriptions lagged Friday and Saturday, both of which were virtually holidays in the financial district, and the total pledge now stands at only \$290,526,320 while it should amount to approximately \$750,000,000 if the district's quota of \$1,500,000,000 is to be reached.

For the remainder of the campaign the entire strength of the home defense league will be ordered to canvass for the subscription. The work will be undertaken by police precincts and under the direction of the Liberty loan chairman for each. Every one of the 25,000 members of the league will devote his time to the work. A systematic canvass of the entire city will be made block by block. Every house will be visited.

Washington, D. C., Oct. 14.—President Wilson, in behalf of the Liberty loan tonight issued a proclamation setting aside October 24 as Liberty day and urging the people of the nation to assemble on that day in their respective communities and pledge to one another and to the government that represents them, the fullest measure of financial support.

St. Louis, Mo., Oct. 14.—Failure of the Liberty loan will mean higher taxes, said Champ Clark, speaker of the house of representatives who, accompanied by Mrs. Clark, passed through here today on their way to Fort Sill, Okla., to visit their son, Lieutenant Col. Bennett Champ Clark.

Boston, Mass., Oct. 14.—A daily average of \$35,000,000 for 12 working days must be subscribed if New England's maximum quota of \$500,000,000 of Liberty bonds is to be reached, said Allen Forbes, a member of the New England Liberty loan committee, in a statement tonight. For the first two weeks of the campaign only \$59,177,000 in subscriptions have been tabulated.

Women in Banks "Making Good." Twenty thousand women, who have found employment in Wall street banks since the war began, have "made good," according to bankers. The women are slower but more careful than men, and what is lost in hiring twice as many women is made up by the lack of mistakes.

Appreciation of the work of farm cadets generally, it is no more than fair, now that the season of farm work is largely over, to give a word of appreciation for their services. Last spring there were many farmers who needed help badly, who, after much deliberation, concluded not to make the venture of employing boys from the city schools. Others did so reluctantly, being driven to it by stern necessity. The result in practically every instance was satisfactory. The boys were bright, keen-witted fellows, who, if not experience brought to their work a fine degree of intelligence and adaptability. The boys speedily won their way to the hearts of their employers, and when the season ended there was mutual regret at the parting. Many of them will return of choice another year, when the demand for them will doubtless be greater than in 1917, and with them will come many others who last season did not dare to undertake farm work. And among farmers there will be much greater readiness to accept the services of the cadets.

The reports of yesterday relative to the seizure of certain islands and the demonstration of the German fleet in the Gulf of Finland, doubtless has a disquieting effect in Petrograd. But it should be recalled that the danger of capture of the Russian capital is not so great as might appear, or at least its immediate capture. Winter is closing in on the Russian coast and both military and naval operations in that part of the battle front are greatly handicapped by weather conditions. It will quite likely be spring before any actual offensive against Petrograd can be undertaken, and many things in the war field are likely to take place in the next six months.

For less than 30 cents a day—for less than a dollar a week, anybody can buy a Liberty loan bond for \$50. It is not a large sum to save, many a one spends much more than that outside his actual necessities without thinking anything about it. It is in fact about the smallest allowance for anybody for spending money. Why not begin now and while saving for yourself and against the proverbial rainy day help along the government in perhaps the only way that many can? Buy a \$50 bond in any event, and as much larger a one as you can!

Let nobody for a minute hold back in subscribing for the Liberty loan on the theory that the war is over or about to be over, and that the money will not be needed. The allies are still a long way from victory. They will be farther yet from it if Germany learns, and Germany would quickly learn, that the loan was a failure. Whoever holds back at this time from subscribing delays the ending of the war. Whoever subscribes, even a small amount, but in any event as much as he is able, helps to put a speedy end to it.

What the boy cadets can do in the way of food conservation was shown recently in Niagara county, where the abundant peach crop was likely to go to waste for lack of anybody to harvest it. The boy cadets of the county, divided into seven camps, undertook the work, and picked 60,000 bushels of peaches. They earned \$2,000 by their work and saved a crop valued at \$75,000 to the farmers of Niagara.

AGED MAN FATALEY INJURED.

Extra D. & H. His Rig of John Schenckhorn.

Saturday evening, at about 7:45 o'clock, at the Weber Electric company's crossing, about two-thirds of a mile from South Schenckhorn, D. & H. extra 1050, in charge of Conductor H. Runyon and Engineer J. Bierck, both of Binghamton, hit the horse and wagon of John Schenckhorn of Rotterdam, inflicting serious injuries to Mr. Schenckhorn. He was removed to the Ellis hospital in Schenckhorn as quickly as possible, where last evening it was said his condition was critical with little hope of recovery. He had serious injuries about the head and several ribs broken, combined with internal injuries. Schenckhorn is a man about 60 years of age.

Motor Trip to Delaware Water Gap

Miss Catherine Tobes, accompanied by the following associates on the Normal faculty, the Misses Matteson, Scooby, Hurlburt, Alden and Fritts, returned last evening from a motor trip to the Delaware Water Gap. They left Thursday afternoon last, spending the night at Deposit. The following day they proceeded to the Water Gap and returned to Oneonta via the Hudson river route.

Bernard's Holstein's in Demand.

H. Bernard, the Schenckhorn insurance man, who has made the Mutual Life a household word in this section, and who is an agriculturist for diversion, shipped two of his best thoroughbred Holstein cows of American registry to a prominent business man in Albany the past week. He has a number of cows that will be tested for official records this winter.

THIS "HELIO" WAS CHARMED

Terrific Bombardment by Germans
Failed to Put Supposed Signaling
Party Out of Commission.

One morning—it was along the Alsace early in the war—a sudden burst of sun from a bank of cloud found two British officers lying on a grassy ridge enjoying a respite from the usual sodden weather and overcast skies. Together, says Mr. Frederic Coleman in "From Mons to Ypres," they gazed on the entrancing panorama.

As they looked down the wooded hill-sides into the lower land that bordered upon the river, one of them suddenly called out: "Look! A helio!"

From a hedge behind Moussy came the flash, flash, flash of a heliograph, in regular intervals.

"Must be some fool sort of code," said the junior officer. "I never saw anything like it before."

As they watched it the Germans saw it, too. Bang! went a big black "Jack Johnson" not far from the spot. Smash! came another. Still the flashes twinkled from the surrounding green. The first two shells were the forerunners of dozens that crashed through the hedge and into the turf all about the tiny center of light. And then the clouds shut out the sunshine and the flashes ceased.

The next morning a brief ten minutes of sun caused eyes on the ridge to wander valleyward again. Sure enough, two flashes, intermittent and apparently quite without coherence, came from the spot at the hedgeside. Soon the enemy howitzers played on the vicinity more fiercely than before, and after the sun had gone from sight they kept up their bombardment of the unfortunate spot for half an hour. Dozens of shells fell thereabouts, then scores on scores.

That afternoon a cavalry officer had a journey to make, which took him to General Monro's headquarters, near Moussy. When his work was done he continued a few hundred yards and sought the spot that had suffered the awful shelling. It was not hard to find. The hedge was smashed and great, black holes gaped in the green fields round it. No sign could be seen of the helio party; but that was not surprising, since for more than half an hour shells had fallen all about the flickering light, until it seemed that no man could live in its vicinity.

The staff officer strolled over to a battery position not far distant and asked for news of the signallers. The gunners had wondered at the heavy shelling, but had seen no human beings near the hedge before or after the bombardment.

Nonplused, the officer walked back to the devastated area, and, just as he was leaving, discovered the cause of all the trouble. There, caught on a twig of the hedge, swinging lazily in the wind, was a bright-bottomed, empty sardine tin, thrown carelessly aside by some satiated luncher. The sun, catching the bright bit of moving tin, had made of it a tiny reflector. Surely, never had so insignificant an object caused the Germans so great an expenditure of costly ammunition.

Industry of Genius.

Most writers recognized as possessed of genius or of great talent have been voluminous producers. In most cases their talent or genius, as a rule, after being stimulated by success, has literally taken possession of them and forced them to work hard and persistently. Balzac used to have rages of industry lasting for many hours and leaving him exhausted. Scott's prodigious industry was due mainly to his determination to pay off a heavy indebtedness. Dickens was marvelously industrious. But Thackeray was lazy and used to suffer greatly from the thought of work undone. His rages of work were not voluntary, like Balzac's, but inspired by desperation. But he could take a diene for a novel and stick to it till he had produced a monumental work. If he had loved his work more, however, he might have made the world even richer than he did by his unique gift and he might have discovered in himself unsuspected veins of genius.—Exchange.

The War Garden.

Representative Macdon of Illinois said in Chicago the other day:

"One way to keep down prices is for every family to set up its own vegetable garden, but the trouble is that most of us are ignorant of gardening as the chap who wrote to the seedsmen:

"As I wish to do my bit for the allies by growing my own provisions on a strip of rocky ground back of my house, please send me, f. o. b., one dozen potato seeds, one bee with hive complete, one dozen fruit seeds assorted, ten square yards of grass, one path, six feet of wall flowers with wall, and one dozen flour plants. I am especially particular about the grass, which should be green, and not the brown kind I see in so many gardens."

Fruit-Eating as a Water Supply.

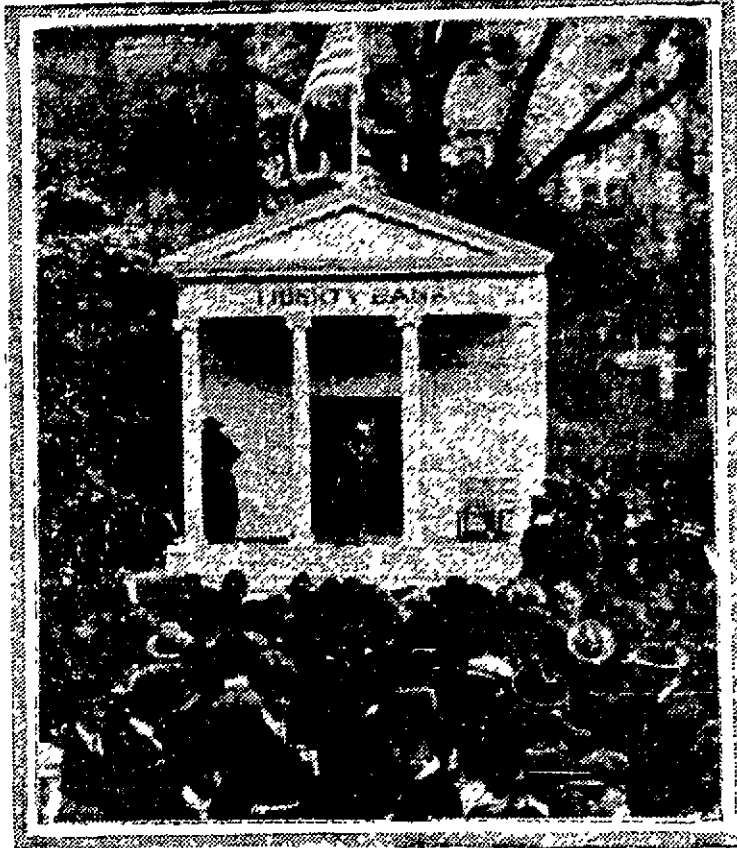

Most fruits contain from 75 to 95 per cent water, and a balance of woody fiber or cellulose, fruit sugar and minerals. Thus the free use of fruit daily insures a greater supply of water to the body, says the Popular Science Monthly.

The cellulose of the fruit supplies bulk and a mechanical stimulation which promotes waste elimination. Acid fruits, such as oranges, lemons, limes and most berries, contain a certain chemical compound called "vitamins" in a very stable form. These vitamins are believed to purify the blood and to prevent scurvy and various skin diseases.

No Chance for Kidnapers.

Billy was quite proud of his baby sister and he thought the women really meant it when they said they would like to take her home with them. One day he was standing beside her buggy while his mother was shopping in a store. A woman came by and said, "My! What a pretty baby!" and Billy said, "Yes, and there's a mammy belongs to her."

First Liberty Loan Bank Opens In New York

LIBERTY LOAN BANK.

Crowd which gathered at the Liberty Loan Bank, the first of its kind, located in Madison Square Park, New York City. This is the city's first bank of this kind, and many gathered to witness the ceremonies of official opening, at which many prominent men and women spoke.

DIES AT MADISON BARRACKS.

Leo J. Vermilyea, of Dunraven Suc-

cumbs to Attack of Blood Poison.

Leo J. Vermilyea, son of Mr. and Mrs. J. D. Vermilyea of Dunraven, died at Madison Barracks where he was in training on Friday night of blood poison, following an infection sustained while shaving two days previous. The disease developed very rapidly, the entire upper part of his body being affected in a short time. The body was shipped to Oneonta by the father, who had been summoned, and passed through the city yesterday, leaving on the afternoon train on the U. & D. for Margaretville, where the funeral services will be held from the church on Tuesday, with interment in the cemetery there. The young man was quite well known in southern Delaware county. His age was 24 years. He is survived by his parents and the following brothers and sisters: Harry, of Afton; Howard, of Johnson City; George of New Kingston; Mrs. Viola Gavitt of Margaretville; Mrs. Edward Richardson of this city. Miss Delia of Johnson City and Mrs. Elmer Burch residing near Stamford.

TRAIN KILLS TRESPASSER.

Charles McDonald, Aged 60 Years, Hit
By Cherry Valley Branch Train.

Saturday afternoon, shortly before 4 o'clock, the Cherry Valley Branch train, in charge of Conductor J. Kearney and Engineer B. F. Fisher, struck and killed Charles McDonald, a man about 60 years of age. The accident occurred near Hanson's crossing, about a mile south of Seward's crossing. The details of the accident are lacking but it is reliably stated that the man was a trespasser upon the tracks. His body was removed to his home and the coroner will investigate the accident.

The accident caused a rumor to become current in this city that Conductor Kearney had been accidentally killed but investigation disclosed that there was no truth in this report and that it had its origin in the fact that his train had struck and killed Mr. McDonald. Mr. Kearney's many friends in the city, while regretting the accident to another, rejoice that he is still with us.

A NOTE FROM G. W. FAIRCHILD.

Provisions of Amended Pension Law
as Applicable to Widows of Soldiers.

Editor Star—Congress on October 6, 1917, adopted an amendment to the pension law increasing the rate of pension for a widow of an officer or enlisted man of the army, navy, or marine corps of the United States who served in the Civil war, the war with Spain, or the Philippine insurrection, to \$25 per month. This does not include widows of men in the regular army, navy or marine corps who did not serve in said wars; it does not include the widows of men of the war of 1812, the war with Mexico, the Indian wars, or army nurses, because they are not named in the amendment.

Applications are not required from those entitled to the increase. Prompt action will be taken in the pension office to make payment of the increased amount. G. W. Fairchild.

Flourished Gun Carelessly.

Robert Cormack Stillman, originally hailing from Delhi and well known there, slightly intoxicated, was about the streets and drinking places Saturday evening and according to reports, flourished a revolver rather carelessly. The matter was reported to the police and he was apprehended and lodged in the city jail with his revolver cased for. Investigation disclosed that he was a trusty at the Binghamton State hospital, who took French leave when given liberty to attend the recent fair. An attendant at that institution will come after him, it is expected, today.

Paid for Loss of Eye.

The friends of John J. McIntyre of this city will be pleased to know that through his attorney, Hon. Charles C. Placich of Unadilla, he has been awarded all the damages the law allows for the loss of his eye several months ago at the railroad shops of the D. & H. company.

FIGHTS ANGRY BULL

Old Farmer's Pluck and Presence of
Mind Save His Life.

Knocked down and rolled over and over by an angry bull in a field at the County hospital at Farnhurst, Del., Alfred Brown, sixty years old, was saved by his own presence of mind and the timely assistance of Robert McFarlin.

When Brown fell he threw his arms about the bull's neck to prevent it from goring him. He was thus clinging to the animal when McFarlin saw his plight, jumped into the field and caught the ring in the bull's nose and finally succeeded in forcing it into submission.

The bull was recently purchased for the county farm, but has been sick. Brown had gone into the field to treat the animal and was leaning over it when it made the rush at him.

Steel Workers Getting \$800 a Month. Increase in wages resulting from a recent agreement between steel plants and Amalgamated Association workers have made it possible for several rollers in mills at Youngstown, Ohio, to earn as high as \$800 a month, or at the rate of \$10,000 a year. Heaters, roughers and other skilled workers are earning from \$12 to \$15 a day.

Don't Gamble On Quality This Season

If there ever was a time when a man should make every dollar bring the maximum, that time is now.

But some people are apt to get the idea that buying cheaper goods will solve the problem. It is a fallacy that we want to warn you against before you learn it in the bitter school of experience.

In clothes it is a time to buy better clothes—to pay a little more and get quality—to get long-wearing fabrics and superior workmanship.

Though wool is scarce

The House of Kuppenheimer

has maintained the high quality of its fabrics and workmanship, but they will cost you a little more this season.

We advise you to buy these better clothes that represent the utmost in value anywhere at \$22.50 to \$30.00.

Carr Clothing Co., Inc.

Successors to Carr & Bull

No Wonder This Boot Is a Favorite

It is so trim and dainty. It fits so snugly, too, that all its charm is carried to your foot.

When you try it on, though, beautiful as it is, you'll hardly know over which to rejoice the more—the way it looks or the way it feels on your foot.

An extra high boot, with a calf vamp, and a glazed kid top Cuban heel, waled sole.

Price \$8.00

Always a Little More For the Money

Gardner & Stevens, Inc.

We Might As Well Tell You

that it is going to be more and more difficult to get good clothes, except at much higher prices than now prevail. The supply of good materials is not beginning to meet the demand.

Clothes there will always be, of course. But good clothes are going to cost more for some years to come.

Therefore, the best time to buy is NOW—an extra suit or two will prove a mighty good investment.

Our new Fall and Winter assortment of

Adler Collegian Clothes

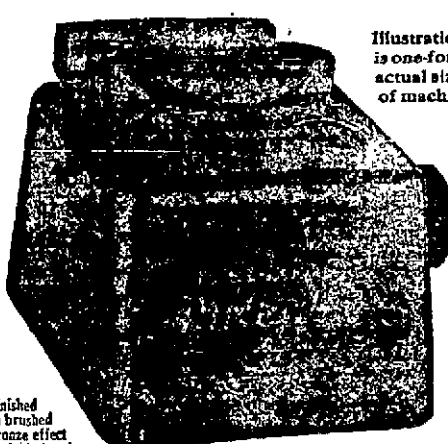

are good clothes in every respect. We are satisfied of that. And their prices are reasonable. You will appreciate that.

LOCAL MENTION.

—Born, Sunday, October 14, to Mr. and Mrs. Frank A. Bell of 31 Gilbert street, a daughter, Ida May.

—A special train of three cars on the D. & H. passed through Oneonta yesterday morning conveying President Loeve and other company officials south bound from Albany to Wilkes-Barre, Pa.

—At the city clerk's office on Saturday a marriage license was issued to Harold Wykes Hughton of 3 Normal avenue and Miss Nellie Bibeau of 251 Chestnut street. The wedding, it is understood will occur on Tuesday.

—D. O. Webb announces that he has declined the prohibition nomination for alderman in the first ward, leaving but two candidates for the office, Fred N. Clark, the Democratic nominee, and Lynn L. Gardner, the Republican.

—At Cooperstown today commences a trial and special term of the supreme court with Judge Kiley presiding. The court will call to the county seat numerous attorneys, jurors and litigants as well as some witnesses before the grand jury.

—The school of telegraphy which P. K. Burke is to instruct, meets this evening at 7:30 o'clock in the E. & L. club rooms in the Fairchild block for organization. It is hoped that all who have signified an intention to join the class will be present.

—It was reported upon the streets last evening that a man pedestrian had been hit by a passing motorist on the South Side state highway, about 6 o'clock last evening, and painfully though not seriously injured. The Star was unable to ascertain any of the facts if the report be true.

—The clam chowder supper served Saturday evening at the Lutheran church parlors broke all records of similar events in the history of the church. The total receipts were over \$45, and this sum would have been materially increased had provision been made for a larger number.

—Optician F. J. Ives has at his office the record for three full years of the temperature in the city, his self-registering thermometer keeping the record continuous. This is a valuable record and anyone wishing to consult it at any time will be cheerfully accommodated, it being his desire to make the record available for any practical use desired. Mr. Ives is to be commended for his public spirit and interest in such a record.

Liberty Loan Speakers Tonight.

The managers of the three Oneonta theatres having generously consented to a continuance of the Liberty Loan addresses in their places of amusement during the present week, President Butts of the Oneonta committee has arranged for a series of addresses each evening by leading business and professional men of the city. The speakers tonight will be: Monday, October 15—Strand, 7:45, Dr. George J. Dunn; Strand, 9:15, Hon. A. L. Kellogg; Oneonta, 8:30, Prof. Arthur M. Curtis; Oneonta, 9:15, Prof. E. H. Anibal; Broad street, 8:30, Dr. Charles A. Schumacher.

There will be a meeting of the general committee this afternoon at 1 o'clock to meet Mr. McAllister, who represents the Federal Reserve bank in this county. It is hoped that there will be a large attendance.

Personal work in the several districts of Oneonta township will be done this week by the speakers named in The Star of Saturday. The work in the Reservoir road district will be in charge of Jerome Taylor.

Entertainment at Woman's Club

Tuesday evening the October entertainment at the Woman's club will be held at the club rooms. There will be illustrated travel talks by Mrs. W. P. Blakely, Mrs. George B. Baird and Mrs. Norton L. Forth. The entertainment will be both entertaining and instructive and it is hoped that there will be a large attendance of the membership.

Meetings Today.

PLUMBERS AND TINSMITHS STRIKE

DEMAND FLAT INCREASE OF \$3 WEEKLY AND REFUSE OFFER OF \$2.

Employers Declare That Work Is Light with Much Unproductive Time Resulting and Conditions Do Not Warrant Increase Asked.

All the plumbers and tinsmiths and their helpers, numbering about 25, employed by the plumbing contractors and hardware merchants of the city, went on a strike Saturday night to enforce their demand for a flat increase in wages of \$3 weekly, refusing a compromise proposal of employers to pay an increase now of \$2, with an agreement to consider a proposal for a further increase to the sum asked when the volume of new business shall have increased to such an extent that all the men can be kept profitably employed. With winter rapidly approaching and visions of frozen water pipes and faulty heaters haunting Oneontans, this will be no cheering news. The further fact will not be reassuring either, as present indications are not favorable to a speedy termination of the fight unless one side or the other surrenders absolutely.

The edict was delivered to the employers on Wednesday last in the form of a notice signed by the officers of the organization, and each individual man demanding the flat rate. The employers have no organization, but after a conference they decided that the conditions surrounding the trade at the present time did not warrant so large an increase and they presented individually a counter proposal that they would pay \$2 increase to all. This was not acceptable and every employing firm was notified Saturday night that they would be without workmen today.

Discussing the situation Grant Zeh, the president of the organization of the men, is quoted as saying that the increase in the cost of living justifies the increase asked and that the buying power of their income from their labor will be no greater than it was before. He said that the men were united to a man not to accept the compromise proposal and that the increase could and should be passed to the customer.

One of the employers, in referring to the matter, stated that the men less than a year since were given a reduction in hours from nine to eight with no reduction in wage, which amounted to about 40 cents a day increase. He said that when work exists the men are given work for ten hours if desired. If the employer requires the extra hours, time and a half is allowed, and if done voluntarily only regular time is allowed. Double time is given for Sundays and holidays. The minimum wage for plumbers and tinsmiths is \$18 and several men are paid \$20. The apprentices are paid from \$6 to commence up to \$15, which latter sum a number of the helpers receive. He declared that there is little new work at present and that while the men suffer no loss time and are given shop work such as can be found, that actually considerable unproductive time results. He insisted that it is impossible to pass it on to others when there is so little outside work in the aggregate. He expressed a conviction that the three employers who work at the trade will be able to care for the emergency calls except upon rare occasions when some delay may result.

Dates of Poultry Show

The Oneonta Poultry and Pet Stock association has chosen December 17 to 21 as the dates for their annual poultry show. The exhibit will probably be held in the store recently vacated by the Home Furnishing company, 231 Main street. At a recent meeting of the members the premium list was gone over with care and in nearly every class the premiums were increased and other liberal inducements offered that should appeal to all interested. Entry blanks and premium lists will soon be sent out to fanciers throughout a large territory. Already much interest is being shown and early indications are that there will be a big entry. The officers of the association are: President, J. W. Orr; secretary, Frank Haines; show secretary, A. J. Relyea; treasurer, J. Phoenix.

With the Enrollment Board.

There was no news of public interest yesterday in connection with the activities of the First Otsego district enrollment board. It had been expected that an order would by this time be received regarding the additional 15 per cent of accepted men, completing the present enrollment. This has not yet been received and it is possible that the final call may be delayed on account of the difficulty which all camps are experiencing in equipping the men now in camp.

Returns from Camp Devens.

R. N. LeVail, who recently went with the Oneonta contingent to Camp Devens, at Ayer, Mass., has returned to Oneonta, he having been rejected by the camp officials.

Ladies Attention!

There's as much difference in the quality of coffee as there is in automobiles. Try Otsego. Cadillac quality at Tin Lizzie price. Your grocer has it. Insist on getting it. advt 1t

SERVICE FLAG PRESENTED.

To Methodist Episcopal Sunday School by Men's Bible Class.

At the Rally day services held yesterday at the Methodist Episcopal church, at which there was a record attendance and a very interesting program was given, the Men's Bible class presented one of the new service flags, which all families, churches, schools, business houses and other organizations are entitled to fly with as many stars as they have representatives in the American army and navy, to the Sunday school of the church. The presentation was made at the close of the children's program.

Judge W. I. Bolton, in an inspiring patriotic address, presented the flag, and an appropriate response was made by Dr. George J. Dunn in behalf of the Sunday school.

Judge Bolton in his address briefly sketched the history of the flag from its birth to the present time, and its record in the several triumphant wars in which it has been the emblem of the United States. In conclusion Mr. Bolton predicted the final triumph of the allied arms in the present conflict, and urged all present to aid the committee in completing the roster. Information regarding any who should be included in the list would be gratefully received by the committee, which consists of A. J. Bookhout, Frank E. Nell and J. R. Peters.

REGISTRATION IN ONEONTA

Shows Reduction from First Two Days of Recent Years

Owing doubtless in large measure to the unfavorable weather of Friday and Saturday, the registration in Oneonta showed a falling off from the figures of recent years. The total for the eight election districts at the close of registration on Saturday night was 1,085 as compared with 1,547 for two days in 1916, which being a year for the election of national and state officers naturally elicited more general interest and a larger early registration. The fairest basis of comparison is with 1915, which like the present was an off year for the state ticket, but the last preceding one for a city ticket. In that year the enrollment for two days was 1,112.

The figures for Friday and Saturday and the district totals are, as follows:

	Fri.	Sat.	Total
1st Ward, 1st Dist.	50	57	107
1st Ward, 2d Dist.	51	78	129
2d Ward, 1st Dist.	50	74	124
2d Ward, 2d Dist.	32	45	77
3d Ward	112	95	207
4th Ward	95	93	178
5th Ward	46	93	139
6th Ward	56	93	124
Total	492	593	1085

IS NEW ASSISTANT TRAINMASTER

Yardmaster Dickinson Promoted and Is Succeeded by George Perkins.

A. G. Dickinson, who was recently recalled from the road service as conductor out of Binghamton and made general yardmaster at Oneonta for the D. & H. company, has been named as an assistant trainmaster in the office of H. M. Gargan of the Susquehanna division and will commence his duties at once. Mr. Dickinson has been a valued employee of the company for years and had previously served as yardmaster and is believed both by the officials and his associates as well equipped for the position.

Succeeding Mr. Dickinson as general yardmaster is George Perkins, formerly and for some time night yard master and one well versed in the yard work and quite familiar with the Oneonta yard and the operation of the "humps" in the classification yard here. Mr. Perkins' successor as night yardmaster is to be Burton Prindle, who has been assistant night yardmaster.

Remember the Date.

On Friday evening, Oct. 19, Dr. Anna Howard Shaw, undoubtedly the most famous woman clergyman in America and the foremost advocate of equal suffrage, comes to Oneonta to address a suffrage rally and those who have heard her will not let the opportunity pass of hearing her again and others should not. She is a remarkable woman and delivered her message in such an eloquent manner that whether you agree with her or not you will admire her ability and commend her presentation. It will be given in no offensive manner and will be worth the hearing. Remember the date and reserve the evening for her. The Masonic quartet of Delaware county will sing and they, too, are worth hearing.

Recalled to State Service.

W. H. Yates, formerly mess sergeant with the present Company G of the New York Guard, who was recently relieved from field duty with the headquarters company at Croton Lake, has been recalled to the service and expected to leave Saturday for his station.

Believing it to be for the best interests of our patrons and ourselves, we shall on and after this date sell coal strictly for cash on delivery.

Oneonta Coal & Supply Co., Green & Brownson, Harry J. Butts, Platt & Howland, Wellman & Hubbard. advt 1w
October 13, 1917.

Wake up! See what your friend did. He bought a lot on the Miller plot. Why don't you see F. D. Miller, 193 Main street, or J. E. Tilley, 12 Reynolds avenue, about these future homes, and get one through their exceedingly easy payment plan. advt 1t

Now when you are doing your fall cleaning, call up the A. C. Bouton carpet cleaning works and get your carpets and rugs cleaned so that they are clean. Phone 621-J. advt 1t

Girls Wanted—Doyle & Smith, 24 1/2

Plush Coats

Where one is looking for comfort in a coat to staid extremes of winter weather, these new winter models of plush will surely prove a winner; and whereas the prohibitive price of a fur bars many from investing in a fur coat, these plush coats will give you all the needed comfort and wear at less than one-fourth the cost of the former.

These recently received models are made in the prevailing walking length. Models are belted, others unbelted. Cape collars are a feature on many, in a variety of effective styles. Linings selected for these coats are of the nature of plush and the need of a lining with considerable body, not necessarily confined to silk; high grades of cotton lining and Italian cloth in many instances being used, a more than efficient substitute for a flimsy silk or satin. A complete range of the regular sizes and in addition a complete showing of models for stout and between size figures.

Prices \$27.50 to \$55.00

M. Gurney & Sons, Inc.

There's Health In This Tonic

If your blood is impoverished and your system in a run-down condition, you should take a good tonic. We know of nothing better than our Beef, Iron and Wine. It will build new blood and create nervous and muscular energy. Beef—The nutritive elements of beef, which has an important part in our tonic is supplied in a concentrated form ready to go into the blood.

Iron—In our tonic you secure iron in its most valuable and most easily assimilated form. Iron is needed to supply the blood with red cells.

Wine—Wine is a grateful stimulant and food. In our tonic we use rich, mellow Sherry.

A tired, sleepy, inert condition is sufficient warning that you need our Beef, Iron and Wine.

PERSONALS.

Willard Beach spent the week-end with friends at Schenectady.
Erwin Hunt and Dewey Simmons motored to Whitney Point Sunday.
Miss Eva Gage spent the week-end with relatives at her home in Herkimer.
Miss Marjorie Gregory passed the week-end visiting at her home at Afton.
Mrs. Ella Clark of 115 Main street is spending ten days with friends in Binghamton.
Miss Della Rose of Watervliet is the guest of her sister, Mrs. E. D. Dupuis, 358 Main street.
Miss Margaret Hartshorne of 31 Cliff street is spending a few days with friends in Albany.
Mrs. Jesse Baker of 5 West End avenue is visiting her sister, Mrs. A. R. Baker, in Otego.
Miss Elizabeth Newport left yesterday for Albany, called there by the illness of a relative.
Mr. and Mrs. Frank L. Olin returned last evening from a visit with friends in Binghamton.
Mrs. C. P. Haviland of this city was the guest yesterday of her sister, Mrs. Charles Green, in Otego.
N. P. Willis and Orange L. Van Horne, both of Cooperstown, were callers in the city Saturday.
Mrs. Emma Warner and daughter, Ruth, of 54 Gilbert street, are spending a day or two in Binghamton.
Mr. and Mrs. Harmon Weidman and children of Ithaca were in Oneonta yesterday on their way to Binghamton.
Mrs. Harold Lane returned to Oneonta last evening after a visit with her people at Binghamton over the week-end.
Mr. and Mrs. David G. Roberts returned to their home at Watervliet last evening after a visit with Oneonta friends.
Mrs. James Slade of Watkins avenue returned home on Saturday after a visit with friends in Franklin and Teadwell.
Master Gerald Somerville of Sidney was the guest over Sunday of his aunt, Mrs. C. L. Wightman, 30 Academy street.
Miss Adella Root of the Sidney High school faculty was a guest over Sunday of her aunt, Mrs. Fred Smith, of this city.
Miss Elsa Wood of Bainbridge returned home Sunday after a visit at the home of H. J. Burlingham, 22 Central avenue.
Attorney J. M. Collins of Elmira was in the city last night while on his way to Cooperstown to attend court which opens today.
Mr. and Mrs. John J. Ostrander returned last evening to their home in Watervliet after a visit at the home of Jacob Mayer.
Among the visitors in the city yesterday were Mr. and Mrs. W. F. Walker and Mr. and Mrs. D. C. Hoegland, all of Stamford.
Mrs. George Baker of Sidney, who had been the guest for some time of her niece, Mrs. George N. Martin, returned home Sunday.
G. A. Lane is spending the week at Big Moose in the Adirondacks and has intentions, it is believed, to bag some venison ere he returns.
Mrs. Jennie Safford of 40 Main street, accompanied by her guest, Mrs. Lucinda Keach, of Cherry Valley, spent Sunday in Cooperstown.
Mrs. J. E. Itelly and two children of Watervliet are visiting at the home of her parents, Mr. and Mrs. Thomas Monahan, of Fairview street.
J. J. Tillman, county clerk of Chenango county and one of the well known attorneys at Norwich, was in the city on Saturday on legal errands.
Mr. and Mrs. J. H. Vait of Scranton, Pa., who have been guests for a few days of Joseph Mathews, 18 Watkins avenue, returned home Sunday.
Mrs. Laura Brown of Binghamton, who had been a guest for a few days of Mrs. James B. Murdoch, 3 Walling avenue, returned home Sunday evening.
Mrs. John Owens and daughter, Miss Mary, returned to their home in Watervliet last evening after a few days visit with relatives and friends in the city.
Mrs. M. W. Edmunds left Saturday morning for Syracuse and will return Tuesday with Mrs. William Edmunds, who has been visiting in that city for six weeks.
Mrs. A. P. Dishrow is vacating her Church street residence and is to remove to Corning, where her son, Carl, has secured a position and where they are to reside.
Mrs. G. S. Olin of Fairport, formerly and for many years a resident of this city and the wife of a former well known physician, is the guest of Mrs. C. A. Lane.
Mrs. Sarah Woodin and Mrs. C. C. Colburn returned Saturday evening from a week's visit with friends in Hillsdale, Columbia county, the former home of Mrs. Woodin.
Miss Margaret Holmes returned to Schenectady yesterday to resume her school duties after a few days spent with her parents, Mr. and Mrs. Richard Holmes, in Oneonta.
Miss Ethel Scotchard returned Saturday evening from a pleasure trip to Nova Scotia, where she and Mrs. A. P. Mills of Albany had taken a trip together for rest and recreation.
Miss Edith Riley has returned to Schenectady after a few days' visit with her mother, Mrs. G. E. Riley, of this city. Miss Riley is a teacher in the Schenectady public schools.
Miss Edwina Mead, who had been spending a few days with her parents in this city, returned yesterday to Schenectady to resume her work as instructor in the public schools.
Miss Helena Hegewald and Florence Walsh returned to their school duties at Whitney Point, after spending their Columbus day vacation with friends and relatives in this city.
Oswald Dibble returned to Oneonta Saturday evening from a visit with his daughter, Miss Lulu Dibble, who is now a practicing physician and a licensed osteopath at Malden, Mass. Today he leaves for Deansboro and after a short visit there will depart for Palo Alto, Cal., where he has for

some time been residing. He has not decided how long he will remain there but is anticipating another visit with friends in this section.

Emily Crow, the well known U. S. conductor, is removing to Kingston with his family, his run being from that city to Oneonta, necessitating residence in the first named city.
Mrs. Homer DeMarse and mother, who resides with her, left Saturday evening for Binghamton, having received intelligence of the death of an aunt of the former residing in that city.

Miss Ethel Barnes, who had been spending Columbus day with Dr. and Mrs. William Apthorpe returned yesterday to Roscoe to resume her duties as instructor in the High school at that place.

Mr. and Mrs. W. E. Ford of 28 Ford avenue, who had been spending a week with relatives and friends in Bennington, Vt., and in the Berkshires in Massachusetts, returned home Saturday evening.

Mr. and Mrs. George O. Ellis and Mr. and Mrs. E. L. Hall returned Friday evening from a few days' motor trip, which included Utica, Syracuse, Auburn, Ithaca, Watkins Glen, Elmira and Binghamton.

Earl Fritts, Jacob Eckert, Fred Melick, T. E. Blanchard and Lee Dibble left yesterday by motor car for Pisco lake, in the Adirondack mountains, where they will remain for two weeks on a hunting expedition.

Mr. and Mrs. George Turner and son, Millard, and Mrs. Alexander Turner, all of Deposit, were week-end guests of Mr. and Mrs. F. S. Pond, Upper Main street, and Mr. and Mrs. John J. Crotty, 46 Dietz street.

Menzo W. Goodell and family of Binghamton were in Oneonta yesterday on their way to Cooperstown, and for the next ten days will be in camp at the Boulders, the Amos Bissell cottage on Osego lake below Five Mile Point.

Osgood Chapin of Battery C, New York artillery, who had been visiting his parents, Mr. and Mrs. Edward E. Chapin, in this city, returned to Watervliet yesterday. It is understood that the company will leave for the front at an early date.

M. W. Sullivan, formerly trainmaster of the Susquehanna division of the D. & H. company, now superintendent of the Champlain division with headquarters at Plattsburg, spent the week-end in the city preparatory to removing his family to Plattsburg.

Henry Saunders had as guests at dinner at The Oneonta on Saturday night Mr. and Mrs. E. C. Wychoff, Mr. and Mrs. E. T. Teller, Prof. and Mrs. W. Inglis, Mr. and Mrs. H. D. Saunders, all of Newark, and Mrs. Henry Kerr of Davenport Center.

The many friends of Mrs. William Carrington of South Side, who five days ago underwent a serious surgical operation, will regret to learn that she is still in a critical condition at the Fox Memorial hospital. All will hope for her early and complete recovery.

Among the visitors in the city on Saturday were Mr. and Mrs. H. E. Wilbur and daughter, Miss Alice J. Wilbur, of Sharon Springs, and his sisters, Mrs. S. C. West and Mrs. George A. Hill, both of Middleburg. Mr. Wilbur was formerly employed in the old First National bank here.

Funeral of James H. Perry

The funeral of James H. Perry was held yesterday afternoon at his late home, 22 Luther street, in this city. The services were conducted by Rev. A. Christensen of West Oneonta, and there was a good attendance of neighbors, relatives and friends. Interment was in the Cook cemetery at West Oneonta, the bearers being Josiah Raymond, Clyde and Jesse Perry, nephews of the deceased. Among the floral tributes was a beautiful piece from the neighbors and friends on Luther street.

Among those present from out of the city were Mr. and Mrs. M. L. Perry, Lin Perry, Harry Perry, Mrs. James Dougherty and Mrs. Harry Heath of North Sanford; Mrs. Fred Lord of Afton; Mrs. John Scott, Mrs. Andrew Stalker, Mrs. Charles Scofield and Charles Houck of Deposit; Mrs. James Shields and sons, Justin and Edward, of Binghamton; Mrs. Mary Fitzgerald of Susquehanna, Pa., and Mr. and Mrs. Oliver Perry of Manlius.

Shall We Resign from War.

The Liberty Loan committee has received the following telegram from Ex-Ambassador James W. Gerard, now in Los Angeles:

"The Liberty loan must not fail. Failure means that we resign from the war, that we confess we are not even willing to put up money to back the men ready to risk their lives. We are on the edge of victory. A little nerve and we will win."

In Hospital at Camp Dix.

John Monahan was expected home on Saturday to spend the week-end with his parents, Mr. and Mrs. Thomas Monahan of Fairview street. Instead word came that he is in the hospital at Camp Dix at Wrightstown, N. J., where he is in training. The message did not imply that he is seriously ill and it is expected that he will be home next Saturday.

Death of Carmen Mornell

Carmen Mornell, an Italian residing at 23 Brookside, who formerly was employed as a truckman on the D. & H., died at 5 p. m. yesterday at the Fox Memorial hospital. Death was caused by heart trouble and pneumonia. He was 65 years of age and is survived by his wife. No funeral arrangements have yet been made.

Water Rents Now Due.

Water rents are due and payable at the office of the company in the Wilbur National bank for 20 days beginning October 1, 1917, without commission. Office open during banking hours and evenings from 7 to 9 o'clock.

DEATHS.

Mrs. M. D. Munson.

Mrs. M. D. Munson of North Franklin died Friday evening at 6 p. m., after a long illness. Mrs. Munson, who was in poor health, suffered a shock about two weeks ago and has gradually failed since. Her maiden name was Mary Jane Orr, daughter of Edward and Betsey Orr, and her life was all spent at North Franklin.

Fifty-four years ago she married Milton D. Munson, who died nine months ago. Four children were born to them, two daughters and two sons, of which one survives, Charles, with whom she lived.

Mrs. Munson was a member of the Methodist Episcopal church and in her younger days was a consistent worker. Her funeral was held Sunday, at 1 p. m., from her old home. Among those from away in attendance were: Mrs. Betsy Anne Cleveland of New Jersey, a sister; Mr. and Mrs. Colwell and son of Bainbridge, Allie Osterhout and wife of Franklin, Mr. and Mrs. Luther Orr, Mr. and Mrs. David Orr, Mr. and Mrs. J. M. Hotelling, Ainer Munson and Mr. and Mrs. A. G. Russell and son of Oneonta.

Reynolds-Jackson Wedding.

James Louis Reynolds and Miss Mabel May Jackson, both of Andes, were married at the Methodist Episcopal parsonage in this city at 3 p. m. on Saturday by Rev. B. M. Johns. They were attended by Mr. and Mrs. William B. Secord, also of Andes. Following the ceremony, Mr. and Mrs. Reynolds departed on a brief wedding trip, after which they will reside on the groom's farm at Andes.

Drink the Quality Tea—Bivva, the short way of spelling economy in tea buying. Take no other. adv 1t.

Building Wooden Ships Again.

The present unusual shipping conditions have resulted in the return of the wooden ship to prominence in the merchant marine. Wooden ships can be built in a small fraction of the time required for building a steel or iron ship. They are not so expensive, and not so much skilled labor is required in the construction. As a result of the demand for ships in a hurry more wooden ships have been contracted for and are under construction in America today than for the last 30 years. Sixty-eight wooden ships are being built now on the Pacific coast of the United States. Fifty-six are under construction in Canada and the Canadian government has guaranteed a return of 15 per cent on the investment for ten years to builders of wooden ships in the dominion.

To Live.

We live by desire to live; we live by choice, by will, by thought, by the vivacity of the laws which we obey, and obeying share their life, or we by sloth, by disobedience, by losing hold of life, which ebbs out of us. But whilst I find the signatures, the hints and suggestions, noble and wholesome, whilst I find that all the ways of virtuous living lead upward and not downward, yet it is not my duty to prove to myself the immortality of the soul. That knowledge is hidden very cunningly. Perhaps the archangel cannot find the secret of their existence as the eye cannot see itself; but, ending or endless, to live whilst I live.—Emerson.

WHY THE FARMER WILL BUY BONDS

State Agricultural Society Official Tells Many Attractions of Liberty Issue to Men at Home.

HELPS TO FEED AND FIGHT

Because of Profits Incidental to Higher Prices, Farmers Willing to Contribute Their Money to Support of Government in the Great Fight for Safety of Democracy.

Few will question the patriotism of the average American farmer. If there is any man in whom the love of home, the love of liberty, and the love of independence is thoroughly grounded, it is the American farmer. Naturally, therefore, he is the one man, more than any other, who will stand firmly and staunchly behind his Government in making the "world safe for democracy."

The farmer has done, is doing, and will do all that lies in his power in the matter of production of foods, to support our people at home, our armies in the field, and the starving peoples across the seas. But it is as necessary to finance liberty as it is to fight for it, or to feed those who fight.

Because of the enhanced prices, he is receiving for the bulk of his products by reason of the war, the farmer will be one of the most eager purchasers of Liberty Bonds.

He should be willing and glad to share a part of his profits in support of his government in the prosecution of the war.

It should not be necessary to convince any man of the need of his aid, by his own government.

Charity is not asked for, but help; and help of a kind that knows not selfishness. If he loans his money to the government at a fair rate of interest, he has value received. He has invested it where it will do more work and better work than if it were lying in his bank.

Again, he has something upon which in case of necessity he can realize at any time. Anything that will help to do this is valuable and nothing that I have knowledge of at the present time would have more influence in bringing farmers into closer communion with their common owners' in of Liberty Bonds. If you, my farmer friend, cannot from various causes, such as age, physical disability, etc., enter the fight, you can send your dollars to fight for you, realizing every day and every hour that you then have as much of a personal interest in the winning of the fight for democracy as though you were in the trenches.

Bravery of Women.

The bravery of women in fight is no new thing in Europe. Guizot, in his "History of France from the Earliest Times to 1848," in telling of a battle fought by the Romans, under Marius, near Aix, on the borders of the Cevennes, against the Ambrosians and the Teutons, wrote: "The battle lasted two days, the first against the Ambrosians, the second against the Teutons. Both were beaten in spite of their savage bravery and the equal bravery of their women, who defended, with indomitable obstinacy, the cars with which they had remained almost alone in charge of the children and the booty. After the women it was necessary to exterminate the hounds, who defended their masters' bodies. Here again the figures of the historians are absurd, although they differ. The most extravagant use the number of barbarians slain to 200,000; and that moderate to 80,000; in any case the carnage was great, for the battle field, where all these corpses rested without burial, rotting in the sun and rain, got the name of Campi Patridi, or Fields of Patricianism, a name traceable even nowadays in that of Fourtieres, a neighboring village."

MOBILIZES WOMANHOOD UNDER RED CROSS FLAG

Upon the sturdy shoulders of Miss Florence Marshall falls the great task of mobilizing the womanhood of the country under the Red Cross flag. She has been appointed to organize the women of the country so that surgical dressings and other necessities in Red Cross work will be made in great quantities.

Her work will be widespread. The enrolling of the women of the land in the great work of humanity is a tremendous task, that requires great organizing abilities. Miss Marshall as director of the women's bureau of the National Red Cross has already started the wheels of organization moving, and local chapters are found in almost every community, no matter how small, in the United States. There will never be a need of Red Cross supplies of the kind that can be turned out by the women, for they are devoting a great part of their time to the making of these necessities.

Miss Marshall was formerly the director of the Manhattan trade school and there established her great reputation as an organizer.

Daily Thought.

If it be my lot to crawl I will crawl contentedly; if to fly I will fly with alacrity; but as long as I can avoid it I will never be unhappy.—Sydney Smith.

Another Doctrine Falls.

The so-called doctrine in the art of conversation somehow fails to carry the idea of a corresponding improvement in the art of listening.

PHTHISIS IS ON DECLINE

Dread Disease May Be Obliterated in
Another Decade if Decrease Con-
tinues at Present Rate.

If tuberculosis shall continue to decrease in this country at the same rate as in the past half century, it will be obliterated in another decade. This is the opinion of Dr. Cleveland Floyd, expressed at the Harvard Medical school. There are two conditions, however, which will prevent the complete obliteration of this lung disease at present, and these are poverty and lack of hygienic surroundings.

Doctor Floyd said that almost everybody has the germs of this disease in his system, but that he is able to resist their attack through living a healthy life and through the protection of nature.

Inhalation and infection are the two common ways by which a person contracts tuberculosis. Children may get the germs in impure milk, but outdoor play prevents the spread. It often happens, however, that when people go to work in shops or insanitary offices, or live in crowded rooms, the disease shows itself and gains a foothold. That is why so many persons between the ages of nineteen and thirty-two acquire tuberculosis.

Had Learned His Lesson.
"Take my advice," said the man who has a great deal of litigation. "Do anything rather than go into court." "I tried that once, and it taught me a lesson." "How so?" "I was given a stiff fine for resisting an officer."—Birmingham Age-Herald.

Daniel Webster's Warning.
The last hopes of mankind, therefore, rest with us; and if it should be proclaimed that our example had become an argument against the experiment, the knell of popular liberty would be sounded throughout the earth.—Daniel Webster.

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

If cross, feverish, constipated, give
"California Syrup
of Figs."

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

ARMY OF FARMERS WINS BIG BATTLE

Crops of the United States Will
Feed the World.

MANY RISKED BANKRUPTCY

Country's Call Finds Men on Farms
Chancing All for Patriotism—Big-
gest Yield Ever Grown in Any
Country Now Ripe for Harvest—
Corn Breaks Records.

There is enough food in sight to win the war—enough to feed the world. The biggest crop of food products ever grown in the United States, which means the biggest ever grown by any country in the world, is white for the harvest.

The army in the furrows has won its first battle. According to figures of the department of agriculture there will be harvested 3,248,000,000 bushels of corn, half a billion bushels in excess of the average crop; 462,000,000 bushels of white potatoes, a hundred million bushels in excess of the average.

The same proportion of increase applies to practically all other food crops except wheat. This is the result of the emergency war work of American farmers in response to the appeals of the president and the department of agriculture.

Farmers Risked Bankruptcy.

The army in the furrows has toiled hard. Without delay, on the day war was declared, an army of 6,000,000 farmers was mobilized. A million farmers risked bankruptcy for patriotism's sake. Thousands actually incurred bankruptcy or impaired fortunes. But they are not complaining. The financial casualties have been comparatively few, though. In the spring of 1917 Europe was short of food. There was barely enough food to keep the world scantily fed until harvest. America's army of patriotic farmers came into the field.

Two days before war was declared Carl Vrooman, assistant secretary of agriculture, was in conference in Boston with the committee of public safety of the New England states. Four days later he conferred in Atlanta with the Southern Food Producers' association. His appeal went home to the farmers of the entire country. Cotton planters cut down their acreage of cotton to necessity and substituted food. Cut-over timber lands were put into cultivation. Timber crews planted corn. The South was determined not only to feed itself—never done before—but to produce a surplus.

Committees of public safety in every community, women's clubs, everybody united for a surplus. The corn crop in the South is from 25 to 85 per cent larger than ever. The Irish and sweet potato crops show a greater increase. Soy beans, cowpeas, velvet bean crops enormously increased.

A billion dollars' worth of food ordinarily going from the North to feed the South will not be needed. It will be available for the American and allied forces in the field.

On April 9, while Mr. Vrooman was still in the South, Secretary Houston was in conference in St. Louis with representatives of college and state departments of 32 states. Systematic work and enthusiasm, already efficient in the South and New England, extended to the whole country.

War Gardens a Big Help.

The back-yard and vacant-lot garden movement, by which millions of families this year produced practically all their vegetables, leaves in the channels of trade millions of dollars worth of foodstuffs to meet war needs. The effort must be continued through the coming years.

Larger wheat production for next year is under way. Dr. R. A. Pearson, one of the assistant secretaries of the agricultural department, after a tour of the country, conferences, etc., says that with average wheat weather for the next nine months, the United States will harvest a billion bushel wheat crop. The yield this year was more than a hundred million bushels below the average. Potatoes will be used largely to make up the shortage. The homes are supplied with fruits and vegetables for winter, which will make bread demands lighter.

The food conservation campaign began with the crop increase movement. Millions of bushels of fruit and vegetables canned in every neighborhood are available for winter food. The supply of canned fruits and vegetables is from five to six times larger than ever before.

Why Should We Wash?

Why does a boy object to washing his neck and ears? Or object still more seriously to having them washed? I have evolved a scientific and psychological reason which is a complete answer to the question, but I prefer to answer it by making a personal confession based on my own boyhood experience, says Edwin Puller in the Mother's Magazine. As a small boy, I objected to washing my own ears because I could not see the dirt and because I believed it unnecessary waste of time which might be used more profitably in play; and I strenuously objected to my mother performing the operation because she always hurt me.

There is no period of the boy's life more trying to the parent than the period between eight and twelve, except only the age of early adolescence. The chief characteristic of early boyhood is individualism. He now recognizes himself as an individual entity not correlated to society at large. He feels no obligation to humanity because he does not yet realize that he is an integral part of it. His individualism manifests itself in selfishness and self-centeredness.

DELAWARE COUNTY NEWS

(Concluded from Page Three.)

such comforts and aid as can be furnished and to keep in close touch with them through their campaign. The address was finely prepared and showed close study of the conditions and was listened to with the closest attention. Rev. Mr. Cave, followed with an application of the address to the men of the church, showing them their duties to their fellowmen in the ranks and as well to their duties in the church. The evening's entertainment was concluded by the singing of America and the Battle Hymn of the Republic.

Activities of Boy Scouts.

The members of the Boy Scouts organization have taken up the work of securing subscribers to the issue of the Liberty bonds and are active in the work. It is hoped, and indeed is expected that their efforts will meet with success.

Pleasant Farewell Surprise Party.

Mr. and Mrs. Joseph Gilmore and a number of friends of Mr. and Mrs. Navarro, tendered Mr. and Mrs. Navarro a farewell surprise party on Saturday night.

Mr. and Mrs. Navarro have been summer residents at Stamford for a long time and in fact Mrs. Navarro was one of Stamford's respected young ladies.

The guests gathered at a nearby rendezvous while the Navarros were attending the moving pictures and proceeded to the Gilmore residence where the unsuspecting couple were joyously welcomed on their return. A most enjoyable evening was spent and everyone wished them many pleasant returns to Stamford in the coming seasons.

To Remove to Birmingham.

Advertisements are posted for a sale of the household effects of S. R. Walker, one of Stamford's reputable farmers, living on the Jefferson road, preparatory to his removal to Birmingham.

Returns to His Old Position.

Patrons of the Hotel Hamilton will be pleased to see the familiar face of

Frank Simmons once more behind the hotel desk. Mr. Simmons for many years was steward for the hotel and for Churchill Hall and also was clerk for the former house. His return will be appreciated by the guests of the hotel.

An Additional Stamford Resident.

Professor and Mrs. Goung of this village are being congratulated by their friends on the arrival of a son, born to them on Tuesday night.

Removes to Oneonta.

E. K. Pierce and family are preparing to remove to Oneonta where they will remain during the period of schooling for their daughter. Mr. Pierce has leased his home on Railroad avenue to Leon Smith, who will take possession in the near future.

Improvement at Hoagland's Garage.

Lee Hoagland, proprietor of Hoagland's garage on Main street, has made a radical improvement in the service to his patrons by the installation of a new gasoline pump, which has taken the place of one that was of ancient design.

Stamford to Lose Prominent Citizen.

Clifford Champion has purchased a home in Kingston and will soon leave to occupy it, and make that city his home in the future. Mr. Champion will be greatly missed from Stamford, which place has been his lifetime home.

Moving Picture House Raises Prices.

In addition to the upward trend of prices the management of the Opera house have raised the price of admission to the moving picture shows from 10 to 15 cents.

THE NEWS IN HOBART.

Entertainment for Benefit of Soldier Boys Friday Evening at Delhi.

Hobart, Oct. 14.—The Delhi Red Cross will present at the Delhi Opera house, Friday night, October 19, the great feature film, "The Dumb Girl of Portici," with Anna Pavlova, the famous Russian dancer in the title role. The money secured by this performance will not go to the National Red Cross fund but will be used for the benefit of the boys who have gone to war from the communities working

under the Delhi chapter. This includes our town.

Make your plans to go to Delhi to this great movie. Sale of reserved seats begins at Merrill & Humphries, October 17. Prices 25 and 35 cents.

Late News Notes.

Vincent Cantwell is the new assistant at the National bank of Hobart.—Mrs. J. B. Rich has been elected delegate to the State Sunday school convention, which meets at Syracuse this week.—Manley A. Carpenter, the new principal of the High school, began his duties this week.—Wallace Rich spent Saturday and Sunday with his brother, Walter, who is training at Wrightstown, N. J.—Mr. and Mrs. Walter Farrington and Miss Susie Burdick of Oneonta spent the weekend with Mr. and Mrs. George Gallup.—Lieutenant and Mrs. Champin have returned from their wedding trip.—Mrs. Arthur Ingraham, Mrs. John Lyon of Oneonta and Mrs. Lydia Canfield of Stamford were week-end guests of Charles Ives.

I will be in Hobart with a full line of millinery on Oct. 18, 19, 20. "Tam's" for Misses and ladies, also military shapes, flares, etc., etc. Call whether you purchase or not. Best quality. McClelland building. Mrs. Sheldon Tompkins. Advt. 117

376 Wright's delivery. Advt. 117

Take Any Road; It'll Bring You To Albany

One of the easiest places in the world to reach is Albany. Half a dozen railroads make it a terminal, trolley lines connect with nearby cities and towns and suburban districts, and fine highways bring hundreds of visiting automobile tourists and visitors to it every day. Besides these, the river boats offer a delightful trip down the Hudson.

For people living within, say 100 or 150 miles Albany is the best place possible to shop. Granted that it is easy to get there, the merchants of Albany offer such complete, new stocks at such reasonable prices, and in such a pleasant, intelligent manner, that shopping in Albany is a distinct pleasure.

The Associated Retail Merchants of Albany, including all the first-class dealers in retail lines, are extending an especially hearty invitation to neighbors of Albany to convince themselves that Albany's claims are justified.

This week, October 15-20, is "Buy It In Albany" week, and every man in the city who values high-class patronage is doing his conscientious best to make visiting patrons appreciate that nowhere can you get such superior quality, abundant quantity and reasonable prices as in Albany.

There are magnificent window and store displays, the hotels and restaurants are equipped and eager to take the best care of shoppers and the theatres offer unusual attractions.

You can find something enjoyable and profitable to do, every minute of the day. Be sure to come.

People who live in Albany swear by it. They never think of going
anywhere else to shop.
